

UM31A

UM31A Specification

mPCIe card USB Type 4G / 5G module to USB 3.2 Gen1 Type A Adapter

The **UM31A** adapter is designed for desktop/Embedded system that converts 4G/5G wireless mPCIe Rev 2.1 (USB Type) to USB 3.0 port. You can insert your USB type mPCIe such as GSM, HSPA(3.5G), GPS, LTE, 5G cards to this adapter then plug to USB port.

As standard SIM card is provided, you can connect to network carrier with SIM card.

UM31A supports maximum 6W power consumption.

UM31A Specification

Part number	UM31A
Host	USB 3.0 Type A Male
Device	mPCIe 2.1 USB Type Only
Operation Temperature	(Industry Grade) -- -40~+85°C
Dimension (Maximum)	L*W*H= 87.1*31*9.7 (mm)
Weight	≒ 10g
Certification	ROHS

UM31A Specification

- USB 3.0 Type A Male
- Support mPCIe 2.1 USB Type
- mPCIe Slot H=5.7mm
- Support Full / Half mPCIe dimension
- Support dual SIM card m-PCIe LTE module
- Push & Push Normal Open SIM card socket
- LTE module enable /disable SW
- High quality connectors for long service life
