

RC-16ZBS ZigBee Remote Controller

Seamless Protection

- Lightweight, convenient keychain design
- Front sliding cover prevents unintended usage
- Four buttons: Arm / Disarm / Home/ Panic

RC-16ZBS ZigBee Remote Controller offers users the convenience of controlling their alarm system from a distance away, before entering the home or after exiting. Use the RC-16ZBS to easily arm, disarm, and home arm your alarm system at your fingertips. When under an emergency situation, you can also activate the Panic Alert button with a simple press of button. Front sliding cover design prevents unintended operation. Functionality and peace of mind all packaged into a compact, lightweight remote control.

RC-16ZBS is compatible with other manufacturers' ZigBee systems and can be integrated into new or existing ZigBee systems. The wireless keyfob is designed to fit on a key chain, in a pocket or purse, or on your bedside table - anywhere you would like instant wireless control of your alarm system.
