

## BR1-WTRSB Bluetooth Emergency Pendant

## Comprehensive Protection

The BR1-WTRSB Bluetooth Emergency Pendant is a small wireless panic button that partners with a smartphone application allowing the user to summon help with one simple button press when an emergency arises, inside and outside the home. When the BR1-WTRSB button is pressed, BR1-WTRSB utilizes its Bluetooth connection with the smartphone app to immediately report an alarm and relay user's GPS location directly.

During sudden, life-threatening situations, users may not have the opportunity to unlock and make a call on their smartphones for help, BR1-WTRSB can send an alarm and GPS location to caregivers and authorities immediately. This extra level of protection can also significantly increase response and rescue time.

The BR1-WTRSB is IP57 waterproof, lightweight, and has a long-lasting battery life. With the BR1-WTRSB, help will always be a button touch away, whether at home, or when user is out for a walk.
