

WTRVS

Voice Reach Talking Pendant

Protecting you love ones

WTRVS is a small and lightweight Voice Reach Talking Pendant. Compact and easy-to-use, WTRVS is designed to give you total protection anywhere around your home at any time with the simple touch of a button.

WTRVS allows immediate post-alarm voice follow up after an emergency call without any delay and effort. With a simple press of a button it can open two-way voice communication channel between you and the Central Monitoring Station. More, you can talk to the Central Monitoring Station right through the pendant like a speaker phone with the built-in microphone and speaker.

WTRVS is waterproof to IP44 standard and is compatible with our Medical Alarm Panels. As an intelligent device, WTRVS really ensures that your emergency issue can be handled properly and timely.
